Andrew M. Lowy, M.D., Professor, University of California San Diego Health
Chief, Division of Surgical Oncology
Department of Surgery

Tatiana Hurtado de Mendoza, PhD.
Assistant Research Scientist
Division of Surgical Sciences
Department of Surgery
University of California, San Diego

Title of position

Post-doctoral Fellow

Description of Position

Postdoctoral research fellowships for highly qualified applicants are now available in the lab of Dr. Andrew M. Lowy at the UC San Diego Moores Cancer Center. The laboratory focuses on a broad range of questions relevant to our understanding of pancreatic cancer biology as well as the development and testing of new agents to control the disease. We are seeking postdoctoral scholars interested in investigating how to leverage pre-existing antiviral immunity against tumors. We are using a model of cytomegalovirus infection in mice and building humanized mouse models with patient derived tumor samples and peripheral blood. The postdoctoral scholar will reside in a supportive environment with experienced mentors that will provide an outstanding research experience combined with training in grant writing and other critical academic skills. Applicants with a recent Ph.D. or M.D./Ph.D., publications in major journals and a strong background in cancer immunology, signal transduction, biochemistry, cell biology, animal models and/or imaging are encouraged to apply.

Qualifications Required/Academic Background

Applicants with a recent Ph.D. or M.D./Ph.D., publications in major journals and a strong background in cancer immunology, signal transduction, biochemistry, cell biology, animal models and/or imaging are encouraged to apply.

Salary/Stipend

commensurate with previous accomplishments and experience.

Application Procedure

Please submit interests, Curriculum Vita and names of three references to:
Tatiana Hurtado de Mendoza (тчurtadodemendoza@health.ucsd.edu) and Dr. Andrew Lowy (alow@ucsd.edu)
